### Shipping Board Arranging for Sale of Entire Merchant Fleet.

Preparations for the sale of government-owned steel merchant ships wil! begin at once. Chairman Benson of the Shipping Board stated today Plans for an extensive advertising campaign to place the vessels on the market are under way, he said, and actual disposal of the vessels will start as scon as the necessary de-tails have been completed.

In line with the board's policy for disposing of its entire fleet it was stated that an active campaign to sell the wooden ships also would be haunched. Det mite plans for disposi-tion of these craft, however, still are under consideration.

Board's Terms of Sale. Terms on which the Shipping Board fleet of more than 1.200 steel vessels, approximating 5.000.000 deadweight tons, is to be sold to private inter-ests under the new merchant marine

act, were announced today by Chair-man Benson.

Bids for the vessels will be entertained as they stand, the chairman said, at minimum prices of \$160 a deadweight ton for coal burners and \$170 a deadweight ton for oil burners, built on the great lakes, to \$175 for coal burners and \$185 for oilburning vessels of more than 10,000 deadweight tons. Terms of sale call for 10 per cent

of the purchase price in cash upon delivery, installments of 5 per cent in six, twelve, eighteen and twentyfour months thereafter, and the re-maining 70 per cent in equal semi-annual installments over a period of ten years. Deferred payments are to carry 5 per cent interest. Deduction for depreciation is al-owed at the rate of 6 per cent for the

second year of the vessel's age and 5 per cent for each succeeding year up o the date of purchase.

Requirements of Purchasers. Purchasers of the ships will be required to deposit all revenues derived from their operation in supervised ac-counts from which the deferred inment of current installments pur-chasers are permitted to take from the proceeds of operation an amount not exceeding 15 per cent of paid-up installments as a dividend on the investment. On payment of half of the purchase price of a vessel the buyer will be required to execute a preferred mortgage to the Shipping Board. rom the supervision and control of the board, except as to maintaining its berth and route.

In spite of the apparently complete identification, however, doubt is expressed that the passenger on the steamship is Leroy. Acting on instructions from the home office, however, Lieut. Heig is making every effort to identify and cause the arrest of the man. There is no wireless apparatus on the steamship, he stated and it was necessary to have officers paratus on the steams to have officers of another steamship arrange to over of another steamship arrange to over haul it before a landing at a South American port is made, the landing being scheduled for August 28.

Copies of the finger prints of the man of several aliases have been obtained at the War Department and forwarded to be used when the steamship docks or is overhauled in South American waters.

Members of the Detroit murder squad have succeeded in tracing Leroy through the west before the murder was committed, and, it is stated, are fully convinced that Oscar J. Woods, Eugene Leroy and Oscar J. Fernandez are the names used by the one individual.
